Letterpress Sheet Size Guide

The letterpress die cutting method is used for designs with a critical register of bleeds with a minimum wrap over the folds and with minimum image shift of borders or other design elements.

Selected ECS envelopes templates are available for letterpress die cutting. Call us if the envelope you need is not listed below. Specialty envelopes with custom flap designs may also be made using a steel rule die.

Standard Envelope Sizes

DIE #	ENVELOPE DESCRIPTION	FLAP LENGTH	STYLE	FOLDED SIZE	ONE-UP SHEET (Bold indicates grain direction)
0102	A-2	2 1/4	SS SQ	4 3/8 x 5 3/4	8 x 10 5/8
